

Mission Statement

local * dynamic * innovative

+ We live for community!

As part of the world's largest aid organization, we are motivated for and capable of professional cooperation.

+ We aim to be:

human - impartial - neutral - independent – voluntary - unified - universal

+ We make an impact!

Our cooperation is marked by visible and expressed appreciation. It characterizes our solidary community, it is perceptible in the encounter.

+ We are dignitaries!

In everything we do, we respect the dignity of the individual, whether he or she is a person seeking advice, a patient, a relative or a member of our team. Every human being deserves our respect and individual support.

+ We love and live for quality!

With this attitude we set standards in our facilities and have influence over the health care system.

+ We combine commitment with professionalism!

Every team member contributes both to consultations and throughout the care process.

+ We are caring!

People feel respected and valued by us. They know that their physical, mental and spiritual needs are in good hands.

+ We are there through it all!

Beginning with early detection and prevention, and continuing through counseling, care and rehabilitation, our actions take place in the context of familiar and social environment.

+ We are networkers!

We provide support and help from a single source. People receive as much care as they need - wherever they are.

+ We are up to date!

We integrate scientific innovation into our work, when it benefits the people entrusted to us.

+ We are heard!

We vigorously represent our professional interests to improve the services we offer. Our voice is listened to in society and politics.

+ We manage well!

We strike a balance between cost and high-quality care, between our ethical principles and economic constraints.

+ We explain our actions!

Our decisions transparent and justifiable - both internally and to the outside world.

+ We are there until the end!

We are there with dignity and humanity when life comes to an end.
